

EMAEEC

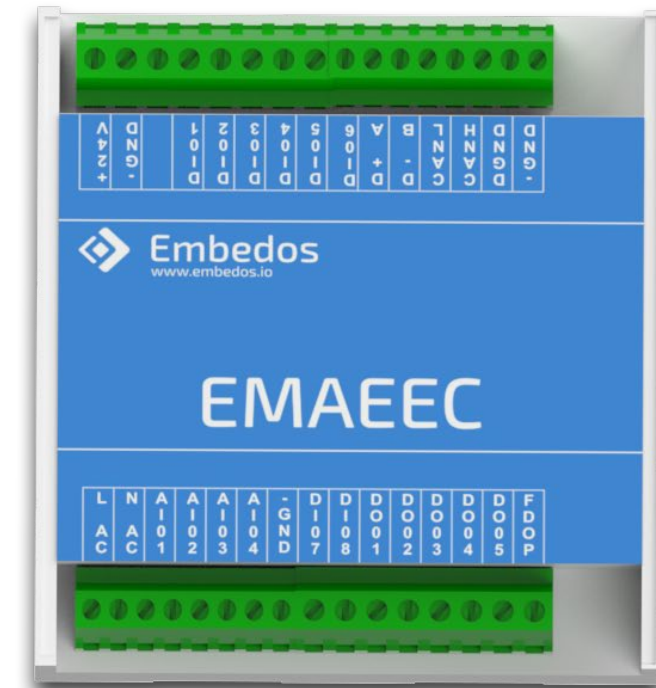

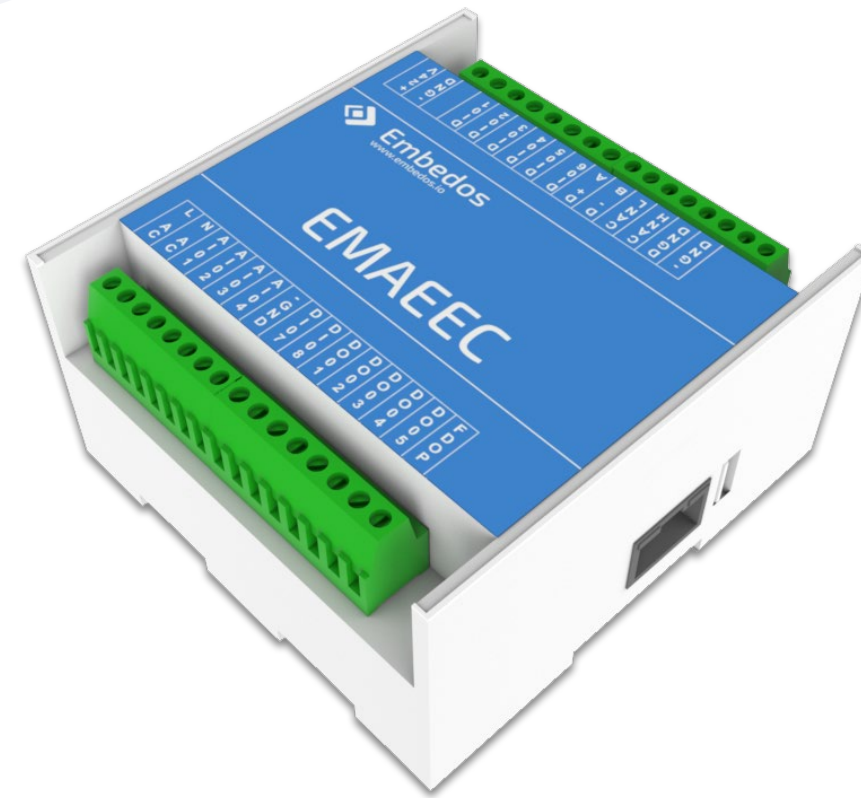

Edge Controller Series
Programmable Network Controller

Features

- Embedded Linux.
- Embedded Webserver.
- Supports client MMI on local host as well on cloud.
- Local storage (8GB – 32GB).
- Real time clock with Battery backup.
- PC side MMI client software for display and analysis.
- EmView and web based version EmWeb.

Electrical Characteristics

Input Supply	240VAC / 24V DC
Analog Inputs	4-20mA, 0-10VDC
Analog Output	4-20mA, 0-10 VDC
Digital Inputs	10V – 30V
Digital Outputs	NPN – Negative Switching, Relay O/Ps
Ethernet	10, 100Mbps

Contact:
+91 9920322059 +91 9833411120

Peripherals

Analogue Inputs	4
Resolution	15 bits
Digital Inputs	8
Digital Outputs	5
Memory	8GB – 32GB

Applications

- Data Server
- Remote Telemetry
- Cloud Gateway
- Data Logger
- Protocol Converter
- Programmable Controller

Interfaces

- a) Ethernet
- b) RS-232
- c) RS-485
- d) CAN

Wireless Connectivity

- a) Wi-Fi
- b) GPRS

Protocols

- a) Modbus TCP/IP
- b) Modbus RTU
- c) Can Open
- d) MQTT
- e) HTTP
- f) Ethernet IP

Software

- EmView
- EmWeb
